CALL FOR PAPERS - ICSPIS2026

The 9th International Conference on Signal Processing and Information Security (ICSPIS) will be held on 10-12 November 2026 in Dubai, UAE. The conference aims to bring together researchers, practitioners, and industry experts from around the world to share their latest research and advances in signal processing and information security.

ICSPIS 2026 provides a platform for researchers, engineers, and academics to present and discuss their latest research findings and innovations related to signal processing and information security. The conference encourages submissions that showcase original and high-quality research contributions in areas including, but not limited to:

- ☒ AI & Machine Learning for Signal Processing
- ☒ Generative AI and Explainable AI (XAI)
- ☒ Communication Signal Processing (5G/6G)
- ☒ Integrated Sensing & Communications (ISAC)
- ☒ Remote Sensing Signal Processing
- ☒ Biomedical Signal Processing
- ☒ Satellite, Radar & RF Signal Processing
- ☒ IoT & Wireless Sensor Networks
- ☒ Data Confidentiality & Privacy
- ☒ Privacy-Preserving AI
- ☒ Adversarial Machine Learning
- ☒ Watermarking & Digital Forensics
- ☒ Autonomous Systems Security
- ☒ Quantum Security
- ☒ Cyber Threat Intelligence & Cyber Resilience

Authors are invited to submit full-length papers of 4-6 pages in two-column format including diagrams and references. Authors can submit their papers as PDF files through EDAS <https://edas.info/N35049>. All submissions will be peer-reviewed, and accepted papers will be published in the conference proceedings and submitted for inclusion in IEEE Xplore. The proceedings of all the previous ICSPIS conferences were published by IEEE Xplore and indexed by Scopus. More information for authors is available on the website.
